

RUTLAND REGION 2022 GRAND LIST REPORT

Logan Solomon

Planner, Rutland Regional Planning Commission

HOW COULD I USE THESE MAPS?

MUNICIPALITIES

- Visualize the geographic distribution of tax revenue.
- Identify opportunities to expand the grand list.
- Locate housing opportunities in existing and planned growth areas by serving as a monetary overlay.
- Comprehend the distribution of potential land uses.
- Support economic development, public facilities, utility, and transportation planning.
- Pinpoint parcels with low tax values to purchase to meet a municipalities' needs.
- Update zoning to promote the Highest and Best Use and increase revenue in existing and planned growth areas.
- Target public investment to strengthen municipal budgets.
- Foster data-driven and transparent decision-making.

PROSPECTIVE DEVELOPERS

- Understand the legality and feasibility of specific land uses.
- Distinguish parcels with the highest return on investment and areas most appropriate for growth.

*Contact Logan at the Rutland Regional
Planning Commission for help!*

RUTLAND REGION 2022 GRAND LIST REPORT

THE NEXT PAGE HAS “HIGHEST AND BEST USE” MAP FOR THE REGION

Municipal tax assessors determine the “Highest and Best Use” of a property, considering what is physically possible, what is legal, what is financially feasible, and what will bring the highest monetary return.

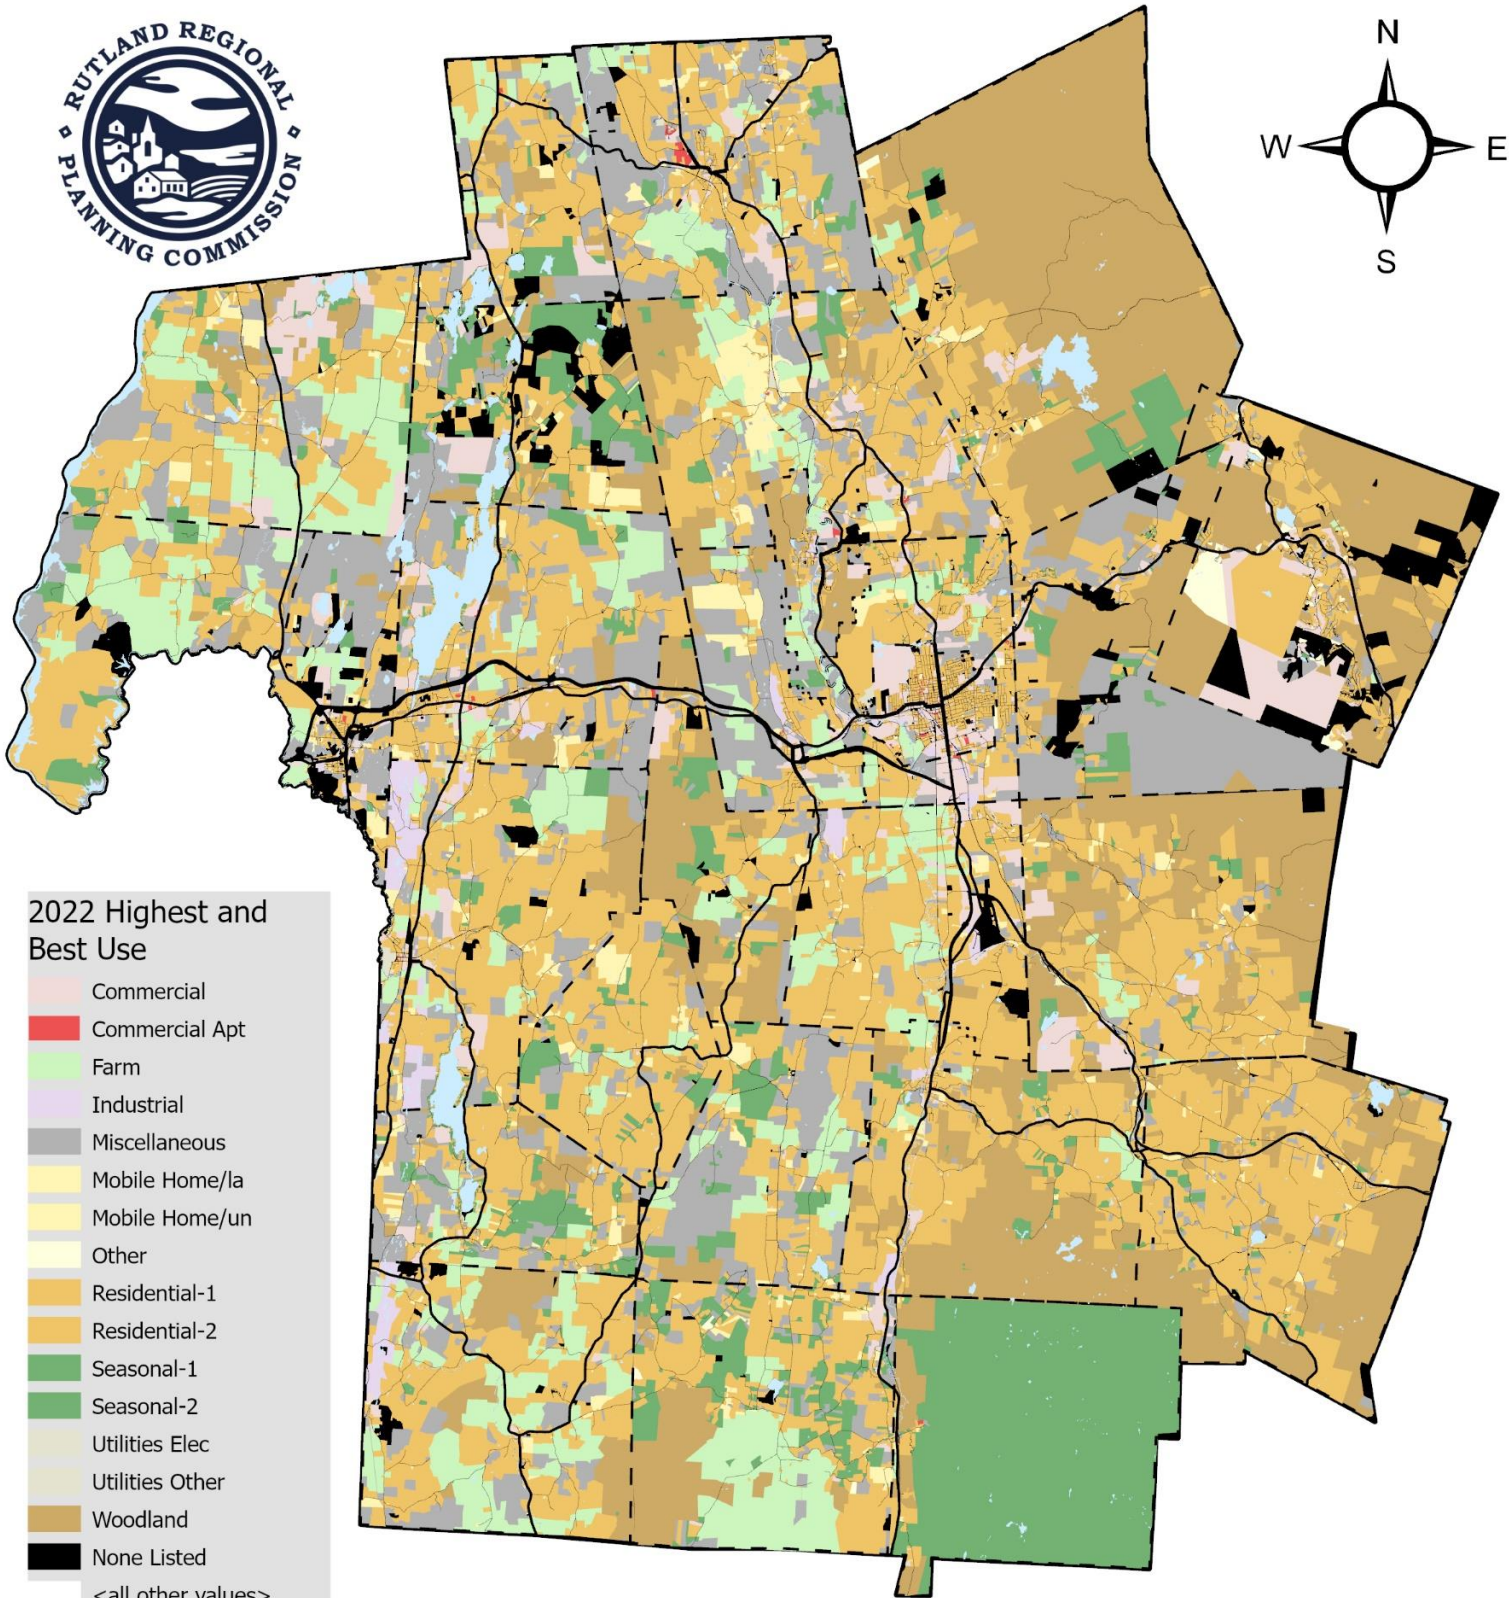

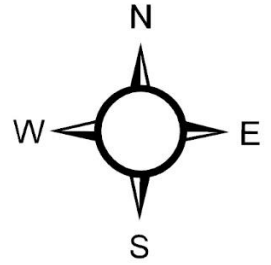

2022 Highest and Best Use

Commercial	Provide non-industrial or non-utility goods and services
Commercial Apt	Residential property with four or more apartments
Farm	Operating farm with buildings
Industrial	Commercial property where raw materials are used to produce a product
Miscellaneous	Undeveloped land that is not mostly forested
Mobile Home/la	Mobile Home on land owned by the unit owner
Mobile Home/un	Mobile Home on land not owned by the unit owner
Other	A unique homogenous and distinguishable market
Residential-1	Residential property with less than six acres of land
Residential-2	Residential property with more than six acres of land
Seasonal-1	Seasonal property with less than six acres of land
Seasonal-2	Seasonal property with more than six acres of land
Utilities Elec	Owned by a utility company and used in the production, transmission, or distribution of electrical energy
Utilities Other	Public utilities other than electric companies
Woodland	Undeveloped and mostly wooded land
None Listed	No Highest and Best Use Listed

** The present use and ownership are not the deciding factors for seasonal properties.*

Woodland	545	153,079.02	\$727	\$1,378

Municipal tax assessors determine the “Highest and Best Use” of a property, considering what is physically possible, what is legal, what is financially feasible, and what will bring the highest monetary return.

Two tax values were mapped in the Rutland Region and each of the region's 27 municipalities:

Land Value Per Acre = the assessed value of the parcel's land on a per-acre basis

Full Value Per Acre = the assessed value of the land and what's on the land (improvement value) on a per-acre basis

Parcels were color-coded relative to other parcels in the region or the municipality they reside.

Blue represents the lowest 20% of parcel values in the Region or Town.

Green represents the 20-40% of parcel values in the Region or Town.

Yellow represents the middle 40-60% of parcel values in the Region or Town.

Orange represents the 60-80% of parcel values in the Region or Town.

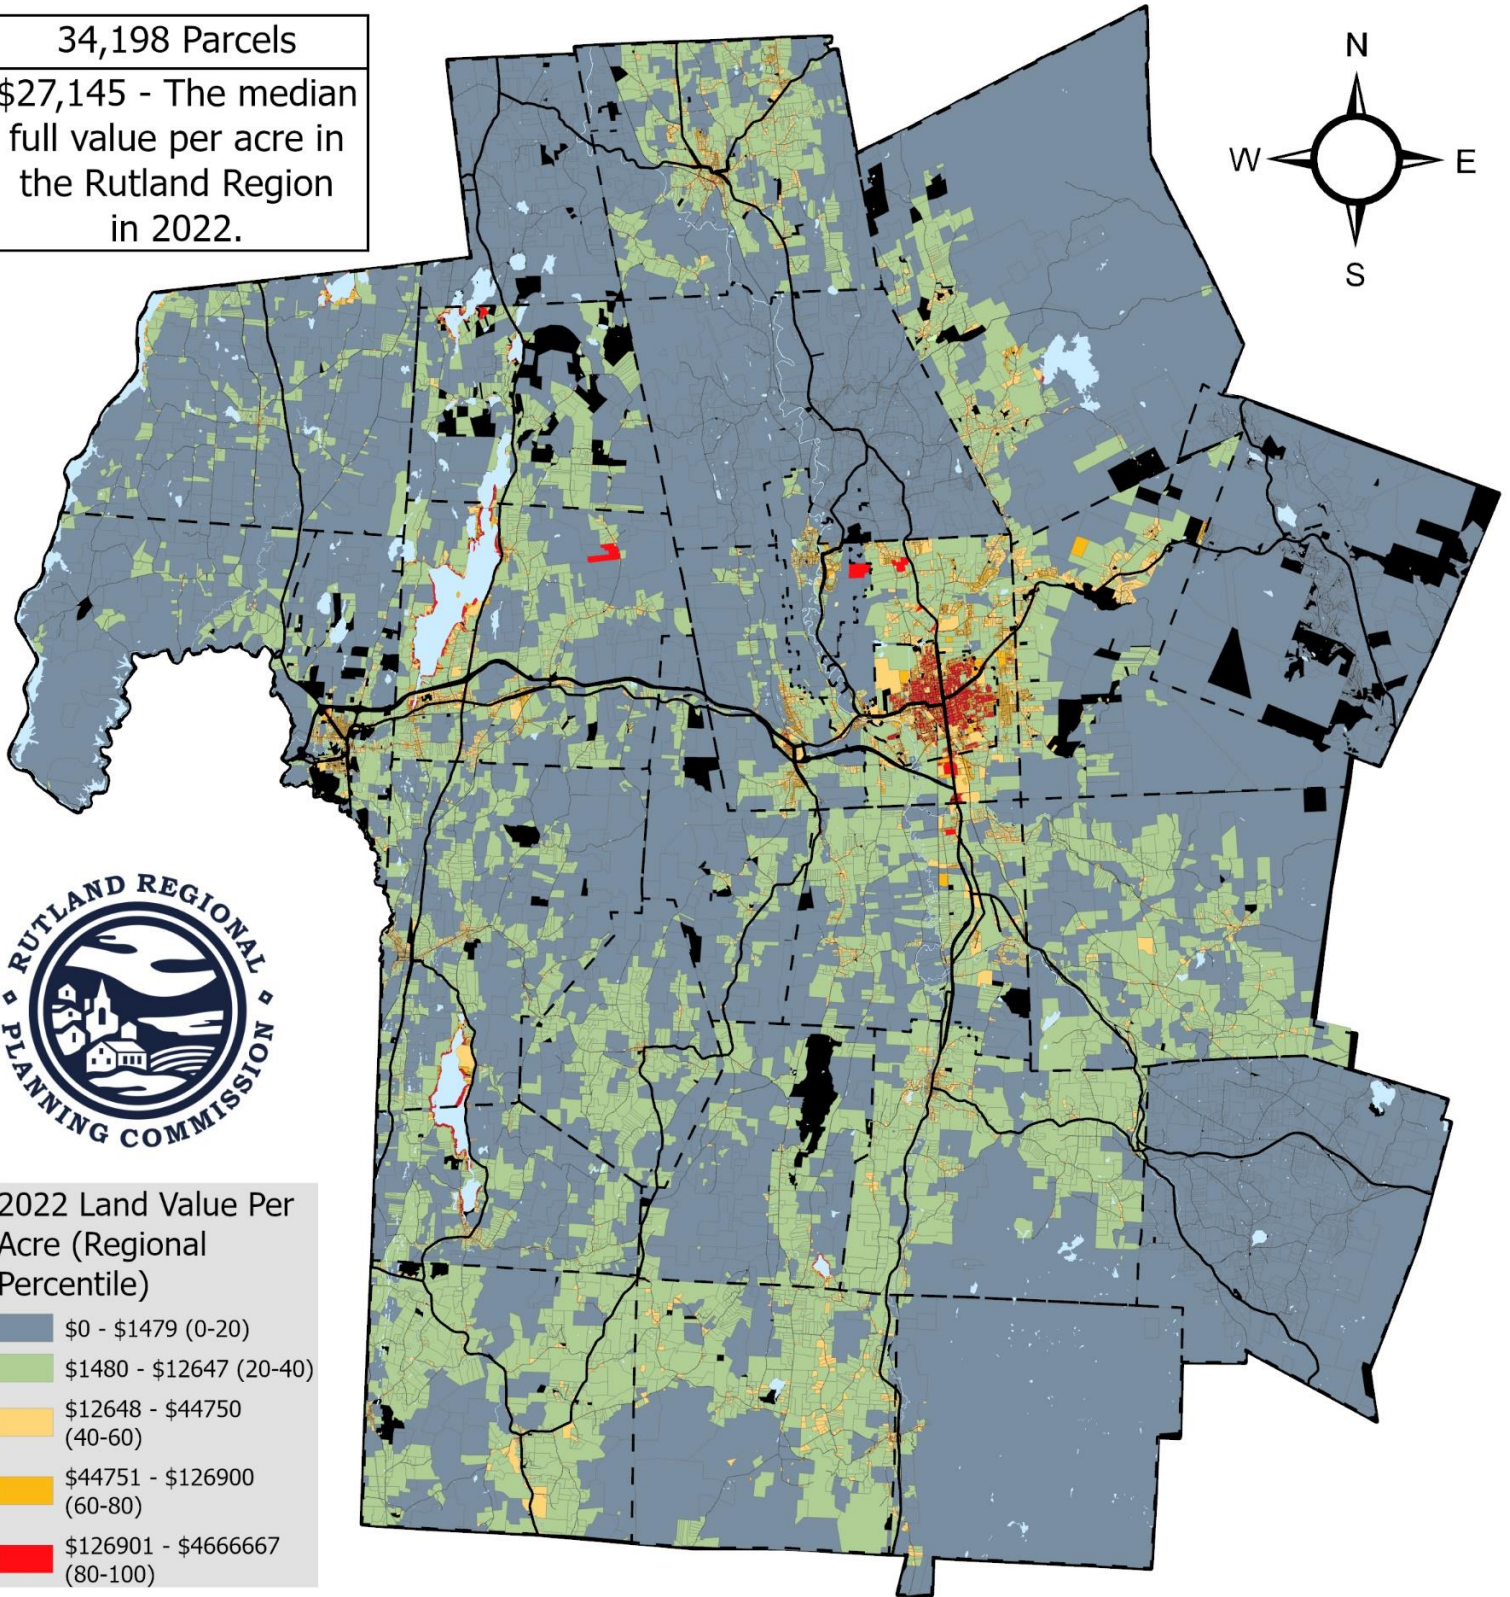

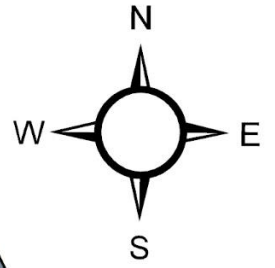

Red represents the top 20% of parcel values in the Region or Town

Black Polygons do not have either a Land Value, Full Value, or Grand List Acre value in the 2022 Grand List Spatial Dataset.

2022 LAND VALUE PER ACRE

RUTLAND REGION, VERMONT

34,198 Parcels
\$27,145 - The median full value per acre in the Rutland Region in 2022.
