5. SECTION 248

The committee reviewed two S.248 45-day notices. The first, a 20MW solar project located at 1020 Sheldon Road in Fair Haven, was reviewed last month with the committee requesting information from the Town. Neary reached out to the town and reported that the town had not taken a position and did not feel like they had standing without an active enhanced energy plan and substantial deference with the PUC. The second, a 125-kW solar project at SolarFest in Brandon, was supported by the committee. Commissioner Schneider reported that this was a preferred site in the Brandon Enhanced Energy Plan and had broad support from the town. **Motion by Pelkey to issue a letter to the PUC stating conformance with the regional plan and no significant regional impacts. Second by Rosenblum. Approved by voice vote.**

6. ACT 250

The committee also reviewed three Act 250 applications: the demolition of former College of Saint Joseph dormitories by Casella Waste Systems; the construction of a storage building at the Rutland Airport; and a subdivision for 14 single family residences by Mountainside Properties in Killington. No action was taken.
